BACHELOR OF NURSING DEGREE COMPLETED + POSSIBLE ARTICULATION PATHWAYS TO MNURS OR MBBS(GET)

+1 YEAR
PART-TIME MNURS

+4 YEARS
FULL-TIME MBBS(GET)

Selenia Choy

The supportive teaching and practical focus have helped me discover my passion for nursing. Although studying medical knowledge is challenging, encouragement and support from my teachers and schoolmates have helped me develop study methods that achieve good results. During overseas exchanges and clinical experiences, I've seen how nursing is practised in different settings, broadening my perspective, strengthening my clinical judgement, and shaping my personal view that nurses can help make people experiencing illness and their family members feel less burdened through care and warmth.

Alik Leung

Studying in the HKU Bachelor of Nursing (Advanced Leadership Track) programme has been a transformative journey that truly sets the stage for a future in healthcare leadership. It's given me invaluable opportunities to learn directly from nursing leaders with exceptional clinical and academic expertise. Their insights and mentorship have helped me adapt smoothly and quickly to both the intensive academic curriculum and the fast-paced clinical practicums, not only deepening my nursing knowledge but also fueling my passion to drive meaningful change in the profession.

Thomas Leung Hoyat

During my two-week internship at the University of Oulu, I was honoured to join the HealthEduCom Lab and participate in discussions with international researchers on integrating Extended Reality (XR) and Artificial Intelligence (AI) into nursing education. I shared my experiences as a nursing student and provided valuable suggestions to the international research team. This experience strengthened my belief in the potential of XR and AI technologies to safely prepare nursing students for real-time practice and ultimately enhance healthcare quality and patient safety.

BNurs-ALT Year 4 student
Exchange at University of Oulu, Finland

Chan Tsz-ching

My nursing exchange in Australia was a life-changing experience. I enjoyed visiting La Trobe University's Bendigo campus, with its warm sense of community, and speaking with nurses at Bundoora about their holistic approach to physical and mental health. I was also delighted to experience the local culture by visiting the night market, trying Australian cuisine, and exploring the country's beautiful beaches and national parks. Overall, I feel that this experience has not only improved my nursing knowledge but also made me more culturally sensitive and prepared me to face challenges.

Kenneth Yip

From the lecture theatres of HKU to hospital nursing management, the core of excellence remains rooted in dedicated service and continuous growth. The HKU School of Nursing instilled an enduring foundation that empowered me to embrace diverse clinical challenges, drive healthcare informatics, and bridge theory with practice. As healthcare evolves, HKU prepares nurses to navigate a digital era while preserving empathy, transforming standard duties into a lifelong, impactful calling.

General Manager (Nursing)
Tung Wah Hospital

"Nursing: the toughest job you'll ever love."

Studying at the HKU School of Nursing has strengthened my foundation as a clinical leader by integrating advanced theory with real-world practice. The emphasis on evidence-based care, critical thinking, and interprofessional collaboration has enhanced my ability to lead quality improvement initiatives and mentor junior staff. Through challenging clinical placements and reflective learning, I have developed greater confidence in decision-making and change management. The programme has also deepened my commitment to patient safety, compassionate care, and continuous professional development. I am inspired to apply this learning to foster a culture of excellence, innovation, and teamwork within my department.
