School of Nursing

The School of Nursing of the University of Hong Kong was established in 1995 and rapidly gained a reputation of excellence in teaching, research and clinical practice. Our School has a strong mission to educate nursing leaders for the community, and it is our goal to provide a diversified and holistic nursing education that will prepare our graduates to become leaders of the nursing profession. One of the strengths of the School is its innovative, interdisciplinary and internationalized nursing curricula responding to the health needs of the population locally and globally. We also have close links with a range of health care settings in Hong Kong which facilitate the provision of cutting-edge learning environments for our students. The School has developed a strong network with nursing school in renowned universities internationally which enables student and academic exchanges as well as research collaboration.

Now, more than ever, there is a great need for highly-qualified and knowledgeable nurses. Currently, the School offers a wide variety of nursing degrees, including full-time and part-time Bachelor of Nursing, Master of Nursing, taught Doctor of Nursing as well as research-based Master of Philosophy and Doctor of Philosophy Programmes. These programmes contribute to the nursing profession by training and preparing nursing leaders, practitioners, researchers and educators.

Doctor of Nursing

Doctor of Nursing (DNurs) Programme is a professional doctorate with course work and research, normally extends over four years of part-time studies or three years of full-time studies*.

Programme Aim

The DNurs Programme is designed for nurses who aspire to provide leadership in advancing nursing practice, education and research.
